SUMMARY

As a fresher Full Stack Developer, I bring a passion for coding and a solid foundation in both front-end and back-end technologies. Proficient in languages like HTML, CSS and JavaScript in front-end. Python in back-end with hands on experience in frameworks such as React-js and Flask. Eager to learn, adapt, and contribute to innovative projects. Strong problem - solving skills in DSA and a commitment to delivering high-quality, user-centric solutions. Ready to collaborate with teams and make a positive impact in the world of web development.
